2016 Castaway Disabilities Fishing Event
Ely, MN

Iowa PVA Member Garry Barry “caught” this huge fish with *alot* of assistance from dock dolly Dr. Heather Bingham. *That is the biggest hook I have ever seen! I wonder how Garry casted it out!*
A Message From The President
Jon R. Schneider

The Paralyzed Veterans of America - Iowa Chapter was honored to participate in welcoming home 214 Vietnam Veterans at the Iowa Veteran's Home in Marshalltown, on June 29, 2016. We would like to thank Commandant Jodi Tymesosn for her participation in this program and our main presenter, General Rose, who is also a Vietnam Veteran. Both General Rose and Commandant Tymesosn assisted in presenting a commemorative pin and the presidential proclamation, individually, to each Vietnam Veteran.

One of our main commemoration objectives was to thank and honor veterans of the Vietnam War, including personnel who were held as prisoners of war or listed as missing in action, for their service and sacrifice on behalf of the United States and to thank and honor the families of these veterans.

Below is a portion of a letter we received from Major General, USA Retired, James Jackson:

"Congratulations on volunteering to become a Commemorative Partner with The United States of America Vietnam War Commemoration and assisting a grateful Nation in thanking and honoring our Vietnam Veterans and their families, especially those who lost loved ones."

2016 PVA Convention

This year’s convention was held in Jacksonville, Florida. The weather was warm and rainy but we don’t get to go outside too much except in the evenings. The Board of Directors heard reports from the Executive Committee and Staff and for the fourth year in a row, the Iowa Chapter was awarded the Chapter Volunteer Award. Twenty three resolutions and the budget for 2017 were also discussed.

On the first day, the National Board of Directors ratified President Al Kovach’s decision to appoint Sherman Gillums to the position of Executive Director of PVA. Sherman was the Deputy Executive Director and I believe he will do a great job. For the Executive Committee, the current officers ran unopposed and were also ratified to continue their current positions of President-- Al Kovach; Senior Vice President-- David Zufluh; Vice Presidents --Charles Brown, Joe Fox, Ken Weas, and Hack Albertson; Treasurer--Tom Wheaton and Secretary -- Larry Dodson.

The resolutions and their outcomes are listed below. If you have any questions you can call me at 515-570-1402.

A Message from PVA National Service Office
Gus Gonzales

Healthcare Benefits and Resources for SCI/D

Veterans and caregivers are getting older and viable options are needed in managing SCI/D veterans’ care. The Aid & Attendance benefits related to compensation or pension causes some confusion about the veterans’ overall entitlements. The Aid & Attendance benefit offers some monetary entitlements but there is a basis healthcare entitlement for all veterans based on the medical needs of the veteran. The Department of Veterans Administration (VA) must meet the veterans’ healthcare needs to ensure the veterans have access to care and supportive medical services in the community.

There are a variety of services VA provides, but we will discuss a specific few used by SCI/D veterans. Some of these programs are the respite program, homemaker/home health aide program, and caregiver training. All VA medical centers have responsibility for the provision of basic medical care.

Respite care offers relief from caregiver responsibilities by providing services to veterans in a variety of settings, including inpatient, community nursing home, adult day care healthcare, and in-home care. Respite care ranges from a few hours a day to four weeks per year in a skilled care facility. The Hines SCI Chief manages this program and must be requested by the caregiver in writing.

Next, the Homemaker/Home Health Aide program provides services such as bathing, dressing, and assistance with activities of daily living for the veteran, chore services such as grocery shopping and meal preparation, and respite-like services such as reading to or talking with the veteran to allow the caregiver to leave the home for a short period of time. This may include Bowel and Bladder care under Fee Basis/Non-VA Care program. These are valuable programs for spouses to unburden dual duties.

Finally, the caregiver education and training is provided across patient care areas to assure that caregivers have the knowledge and skills to provide for the veteran healthcare needs at home. This training is usually completed at a SCI Center (Hub) and the caregiver can typically lodge (50 mile radius required from home address) at the Fisher House. Fisher Houses provide caregivers a place to stay while they are supporting veterans who are either hospitalized or receiving extended outpatient services.

In closing, all these programs mentioned are available to SCI/D veterans and caregivers. We want to ensure caregivers are not “burned out” and are supported. Please consult the veteran’s primary physician about the veteran’s needs and supportive resources for caregivers.

If you need more detailed information, please contact your local National Service Officer at (515) 323-7544 for assistance.
On June 4, 39 veterans, 26 caretakers/spouses and 25 volunteers (total of 90) headed up to Falls Lake in Ely, MN for the Castaway Disabilities Fishing Event. (See photos on page 1 and 14.) This annual event provides a week of fishing and camaraderie to disabled veterans and their caretakers. This event is hosted by the Iowa City VA and sponsored by the Iowa City Eagles Club and the Paralyzed Veterans of America - Iowa Chapter. By hosting the event, the Iowa City VA, amongst other things, distributes, collects and processes the registrations, organizes the planning, provides transportation, and provides medical staff volunteers to attend the event. The Iowa City Eagles and Iowa PVA assist in planning the event, providing volunteers, collecting donations and enduring the financial responsibility for the event. This year Iowa PVA was fortunate enough to be awarded a generous Quality of Life grant from the Craig H. Neilsen Foundation (through National PVA) to assist with paying for the 2016 event.

The Craig H. Neilsen Foundation was established in 2002 as a private foundation dedicated to spinal cord injury research and quality of life programs for people living with SCI. Mr. Neilsen lived with a high level spinal cord injury for 21 years until his death in 2006. He was a visionary with an entrepreneurial spirit who led his companies with inexhaustible passion. While he worked hard and was grateful for what he had, he always remembered others who were experiencing challenges similar to his own. Craig Neilsen wanted his Foundation to contribute in a significant way to SCI research and to offer those with SCI the quality of life they deserve.

Today, the mission of the Craig H. Neilsen Foundation is to improve the quality of life for those living with spinal cord injury (SCI) and support scientific exploration for effective therapies and treatments leading to a cure. With this vision for the future, the Neilsen Foundation funds SCI programs that will:

- Lead to key discoveries through innovative and collaborative basic-applied, translational and clinical research.
- Establish standards for the delivery of care, particularly in the area of rehabilitation.
- Empower individuals living with spinal cord injury to live independently in the community and enjoy improved emotional and physical well-being (i.e. The Castaway Disabilities Fishing Event).

On another note, June 21st was the fifth anniversary of the death of my mother. I would like to rerun the article below that I wrote five years ago following her death. I live and relearn this lesson almost every day from the veteran heroes I have the honor of working with.

On May 27th, 2011 I had the pleasure of volunteering at the Special Olympics held in Ames, IA. This was my third year volunteering for this event. Each year, I have been assigned to the “Developmental Group” which includes the most profoundly physically and intellectually disabled participants. There are so many lessons to be learned from a gym full of these challenged athletes and their families/caretakers. This year I learned probably the most important and personal lesson of all.

One of the events at this level of the competition is a simple tennis ball throw. Virtually all of the participants “compete” in this event. One by one, the athletes come to the line and throw the ball three times. The best effort of the three throws is the distance recorded for medal competition (Gold, Silver and Bronze). Even those who do not “win” a medal, receive a participation award. Near the end of the event, a little boy approached the line. He was approximately five years old, obviously had Down’s syndrome, and had on a royal blue tee shirt. Many of the participants were members of teams from various agencies and group homes around the state and each team wore different colored tee shirts. This little guy was the only participant I had seen in this color. I looked out into the “audience” and spotted a group of almost twenty people with this same color shirt on. He stepped to the line and “threw” the ball. It went approximately six inches. His group erupted with cheers and applause. You would have thought he had thrown the ball six miles instead of six inches. He beamed with pride. All three attempts yielded about the same result. It was a significant moment for this little boy. His group supported his effort. This is what I learned.

Unfortunately, I learned this lesson too late. My mother, who suffered from Alzheimer’s disease, died on June 21st. The disease ate away at her for years and the last five were particularly difficult. She was not only lost and consumed by the effects of Alzheimer’s, but so was I. I focused on all of the things she could no longer do rather than the things she still could do. I no longer celebrated the woman she had been for so many years and the last five were particularly difficult. She was not only lost and consumed by the effects of Alzheimer’s, but so was I. I focused on all of the things she could no longer do rather than the things she still could do. I no longer celebrated the woman she had been for so many years and the last five were particularly difficult. She was not only lost and consumed by the effects of Alzheimer’s, but so was I. I focused on all of the things she could no longer do rather than the things she still could do. I no longer celebrated the woman she had been for so many years and the last five were particularly difficult. She was not only lost and consumed by the effects of Alzheimer’s, but so was I. I focused on all of the things she could no longer do rather than the things she still could do. I no longer celebrated the woman she had been for so many years and the last five were particularly difficult. She was not only lost and consumed by the effects of Alzheimer’s, but so was I. I focused on all of the things she could no longer do rather than the things she still could do.

In my mind, the disease defined her life. It was like I had forgotten all about the woman she had been before Alzheimer’s. I wasted YEARS focusing on all of the things she couldn’t do and missing out on the celebration of all of the things she could. I happened without my even noticing, until that day in the gym with Conner. Mom was smart and stubborn and funny. Those were all things the disease could not take away. Conner gave me something I would have missed out on without his spirit and the spirit of his family. At the end of her life, instead of being heartbroken that she could no longer speak or even open her eyes I reveled in the fact that she squeezed my hand to let me know she knew I was with her.

Thank God for the lesson of Conner. I love you mom.

The Mission Statement of Paralyzed Veterans of America

The Paralyzed Veterans of America, a congressionally chartered veterans service organization founded in 1946, has developed a unique expertise on a wide variety of issues involving the special needs of our members—veterans of the armed forces who have experienced spinal cord injury or dysfunction.

PVA will use that expertise to be the leading advocate for:

- Quality health care for our members,
- Research and education addressing spinal cord injury and dysfunction,
- Benefits available as a result of our members’ military service,
- Civil rights and opportunities which maximize the independence of our members.

To enable PVA to continue to honor this commitment, we must recruit and retain members who have the experience, energy, dedication, and passion necessary to manage the organization and ensure adequate resources to sustain the programs essential for PVA to achieve its mission.

Reading Glasses for our Vets

Paralyzed Veterans of America-Iowa Chapter is now the collection point for reading glasses to be donated to the Des Moines Veterans Hospital. These contributions will be very appreciated by our hospitalized Veterans so please feel free to drop off at our office at 7025 Hickman Road, Suite 1, Urbandale.

Thank you for your help.
NOTICE REGARDING DONATIONS MADE DIRECTLY TO THE PARALYZED VETERANS OF AMERICA – IOWA CHAPTER

- **88.1% OF EVERY DONATION MADE DIRECTLY TO THE PARALYZED VETERANS OF AMERICA – IOWA CHAPTER GOES DIRECTLY TO THE EIGHT DESIGNATED PROGRAMS SUPPORTED BY THE PARALYZED VETERANS OF AMERICA - IOWA CHAPTER.**

- **THE PARALYZED VETERANS OF AMERICA - IOWA CHAPTER RELIES SOLELY ON DONATIONS AND GRANTS AND RECEIVES NO GOVERNMENTAL FUNDING. ADDITIONALLY, THE IOWA CHAPTER DOES NOT UTILIZE TELEMARKETING OR DIRECT MAIL SOLICITATION OF DONATED FUNDS.**

- **ALL DONATIONS MADE DIRECTLY TO THE PARALYZED VETERANS OF AMERICA - IOWA CHAPTER SUPPORTS LOCAL VETERANS AND IOWA CHAPTER MEMBERS.**

- **YOUR DONATIONS SUPPORT BOTH SERVICE CONNECTED AND NON-SERVICE CONNECTED DISABLED VETERANS.**

IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT KIMBERLY GOULD, EXECUTIVE DIRECTOR AT 515-277-4782 ANY TIME DAY OR NIGHT.
**Fort Dodge Primary Care CBOC Transitions from Contract to VA Staff and Housed Clinic**

On December 1, 2016, VA Central Iowa Health Care System (VACIHC) is transitioning from a vendor contracted Primary Care Community Based Outpatient Clinic (CBOC), in Fort Dodge to a fully VA run and staffed CBOC for Fort Dodge Area Veterans. We are working to ensure this process is seamless to our Veterans and the community.

This transition is in line with our long-term, strategic goal of providing VA-staffed Primary and Mental Health Care services in the Fort Dodge area. Since 2001, we have enjoyed a strong relationship with the Fort Dodge Community and have provided personalized, patient-driven proactive care to area Veterans. VACIHC is already staffing Mental Health and Surgical Services for Fort Dodge Veterans, along with supplementing staff and resources for the current Primary Care contract to align with VA’s high standard of care. Overall VA services in Fort Dodge have seen growth in outpatient visits over the past few years and we are anticipating continued growth with unique Veterans utilizing our services. VACIHC is working diligently to ensure this transition allows us to provide the “best care anywhere” to both current and future Veterans.

Changes in Beneficiary Travel Payments at VACIHCS

The Department of Treasury is now requiring all federal payments to be made electronically. Starting August 15, 2016, VACIHCS will no longer be issuing cash for travel reimbursements and will instead process payments directly to Veterans bank accounts by Direct Deposit. Many of our Veterans are already receiving other VA related payments and we have received their banking information from the Veterans Benefit Administration (VBA). For those new to the system or who are not receiving these types of payments or for those needing to update banking information, Direct Deposit Enrollment forms have been mailed out with instructions. These forms can either be mailed back in or provided to our travel clerks in building 3. Veterans already have the opportunity to use the kiosk system to claim beneficiary travel mileage reimbursement but it will become a requirement on August 15th. This easy process takes only a few moments and with kiosks located throughout VACIHCS locations, Veterans will no longer have to come to Building 3 (Admin) and wait in line. This process is more reliable than sending paper checks through the mail, and reimbursements will normally be credited to the account within 7 business days.

We wanted to make you aware of this change as you will be an integral part in ensuring its success. Letters have went out to all Veterans, staff and volunteers are being trained on this change, and we will have signage throughout the facility to help communicate this. Please note this is already being accomplished successfully at many other VAs to include Iowa City. We have worked with their subject matter experts to ensure we communicate this effectively with all parties.

Kristi Catrenich

iGive Shopping Donation Program

Iowa PVA recently became part of the iGive online shopping program. As friends and supporters of Iowa PVA, this is an easy and inexpensive (free) way to support our programs and causes.

1. Log in to iGive.com and create a free iGive account. You simply create a login in and password and designate Paralyzed Veterans of America - Iowa Chapter as your cause. By simply creating this account, $5 is donated to us automatically.

2. After your account is created, any online shopping you do from over 1000 participating stores generates a donation (%) to our organization. The only catch is that you must log in to iGive and then choose the store you wish to order from.

Please visit the iGive website. You will see that almost every store you can think of is listed as an option for your online shopping needs.

Thank you for your continued support.

Sara Gustason, Program Support
515-699-5531

*Please register at least one week prior to call.
FUND A LIFETIME OF SUPPORT FOR SEVERELY INJURED VETERANS.

DONATE YOUR VEHICLE TODAY.
Regardless of the condition, all vehicles have value and are sold at auction. Proceeds from the sale help provide jobs, care and benefits for severely injured veterans and their families. Scheduling a pickup is free and easy, and you may be eligible for a tax deduction, too! There’s no better way to give back to those who have given so much.
